

Company Knowledge AI Assistant

Components & Credentials List

Component & Technology List

Component	Technology
Automation Platform	n8n
Input	Chat Trigger
AI Agent	n8n AI Agent
LLM	OpenAI Chat Model
Embeddings	OpenAI Embeddings
Vector Database	Supabase / pgvector
Retrieval	Supabase Vector Store
Knowledge Source	Google Sheets / company documents
Memory	Simple Memory
Human Escalation	Human approval/review
Error Handling	Error Workflow / Error Trigger
Authentication	n8n Credentials
Secret Management	n8n credentials / variables
Output	Grounded answer + source

Credentials Required

Credential	Purpose
OpenAI API Credential	Powers the LLM (n8n AI Agent) and the OpenAI Embeddings node.
Supabase API Credential	Read/write access to the Supabase project for vector storage and retrieval.
Supabase/Postgres Credential	Direct Postgres/pgvector access, if required by the implementation.
Google Sheets OAuth2 Credential	Access to company knowledge sources stored in Google Sheets.
Gmail/SMTP Credential	Only required if human escalation notifications are sent via email.
